The Antofagasta JWST Proposal preparation Workshop (AJPW 2020)

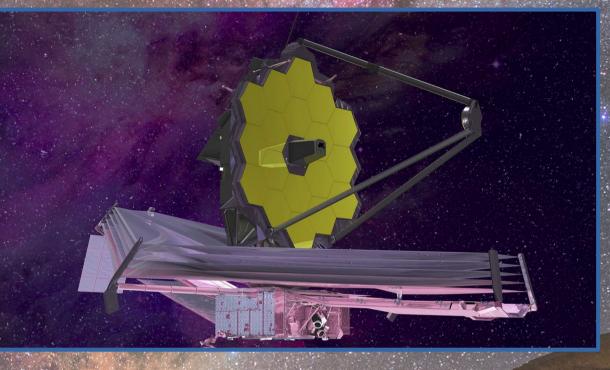

The Universidad de Antofagasta, Antofagasta, Chile

March 18th 2020 A two day proposal-training workshop

A workshop on the JWST instrumentation and example science cases using different instrumentation modes.

Information and hands-on training on the use of the proposal preparation tools such as the exposure time calculator and the Astronomer's Proposal Tool.

Continued support to the Chilean and Latin American scientific communities through the GO1 proposal deadline.

Open to faculty, postdocs and postgraduate students. Registration begins early January 2020

Register for early interest and important announcements, including future travel and accommodation grants for early career researchers and postgraduate students by emailing jeremy.tregloanreed@uantof.cl

Local organiser, Jeremy Tregloan-Reed Centro de Astronomía (CITEVA), Universidad de Antofagasta
