

# Logout

Follow this link to logout of the central SSO service: <https://ssportal.stsci.edu/idp/profile/Logout>

To complete the logout process, you will still need to log out of all the web apps that you have logged into.

Alternatively, or for maximum certainty, perform all SSO related work, *including logins*, in a [Private Browsing](#) / Incognito Window of a browser. Closing this window and the browser will logout of SSO and all web apps.

If you have been logged out of SSO unexpectedly, please review the [Expectations](#) for All Day SSO.
