

Webb Community Events - Subject Matter Expert support

This coming fall and spring, almost 500 Webb Community Events celebrating Webb's launch and first images are scheduled to take place at libraries, museums, and other nonprofit organizations across the United States. Over the next few months, we will be matching scientists and engineers with venues that have requested a subject matter expert to engage with their audiences.

In the month of September, we held three virtual training sessions to help you better understand the initiative, the audiences, and the resources that will be available to you. The timing of these trainings are:

- Monday, September 13, 2021: 2-3:30pm [Recording of session #1](#). (Q&A starts at 49m 27s)
- Wednesday, September 22, 2021: 2-3:30pm [Recording of session #2](#). (Q&A starts at 47m 50s)
- Thursday, September 30, 2021: 2-3:30pm [Recording of session #3](#) (Q&A starts at 44m 40s)

These training sessions are identical, so there is no need to attend more than one, though the question period at the end may be different.
