

Media repository

PanSTARRS documentation includes the following media files:

- [Image-NGC_894](#)
- [Image-PanSTARRS1_dome](#)
- [Image-PS1_catalog_sky](#)

There are some external links you may be interested in which provide images:

- [PS1 Messier Catalogue](#)
- [PS1 Herschel 400](#)

There is also an unofficial Summary Stack imager hosted at Durham University. This returns gri colour images of the sky at 4" per pixel resolution (up a maximum width of 4 degrees):

- [PS1 Summary Stack viewer](#)
