PS1 Cookbooks and recipes for data retrieval

This page is meant to help users to prepare queries to download data, i.e. photometric catalogs and image postage stamps, from the PanSTARRS archive. See the How to retrieve and use PS1 data page for a summary of multiple ways to access the catalogs and images.

Contents

- Do you need a photometric catalog or light curves?
- Do you need images?

The starting point for the PS1 data archive is at Pan-STARRS1 data archive home page.

Do you need a photometric catalog or light curves?

If you need to download a photometric catalog or a light curve from the PanSTARRS data archive please follow the instructions in the Catalog Access Tools section of the PS1 data retrieval page. The photometric catalog queries page also gives some information from an older interface to the catalogs that may still be useful.

Do you need images?

If you need to download images from the PanSTARRS data archive please follow the instructions on the PS1 Image Cutout Service page.
