Discussion items

Time	Item	Who	Notes
10min	News and announcements	All	<ul style="list-style-type: none">• Sarah Kendrew new TSO expert will start at the MIRI branch next week (April 8th, 2024).• Loic Albert mentions that during a NIRISS SOSS TSO there was an anomaly that concerned the entire observatory. This was not the first case, and the root cause is unclear but related to an increased data traffic. The remedy found was to power down the instrument.
50min	Discussion on the number of subarrays for NIRCам DHS	John Stansberry and all	Notes from the discussion.

Action items
