

LGBTQIA+ at STScI

All-Gender Bathrooms

There are a six all-gender bathrooms at the Institute. They are typically single stalls and can also be used as quiet rooms when necessary. Though they are not located in public spaces and thus require swipe-card access to use, the LOC is working with STScI to ensure that any and all conference attendees who need access to an all-gender restroom will have it by temporarily reassigning the public gendered bathrooms for the duration of the conference.
